

Seeds/Starts Catalog
2020 Season

Seeds/Starts Catalog

Group A
(2500 min order)

Midwest (Organic/AOSCA Registered)

Starts @ \$1.15/seed

Hybrid Strain

CBD: 12 - 16%

Going into its 4th generation for 2020. It has excellent disease & pest resistance. This medium to late harvest strain has proven to be grown for Total-THC compliance, producing dense high CBD flower and biomass with wonderful terpenes for the smokable market. Earthy, pungent and woody.

Berry Blossom

Starts @ \$1/seed

Cherry Kandahar S1 x Chardonnay || Indica dominant

CBD: 12 - 15%

One of the tried and true varieties that is grown in nearly every state. Has a proven track record of handling the toughest of conditions and longest flowering cycles. Super floral with exotic overtones of candied raspberries & acai berries.

Cherry Wine

Starts @ \$1/seed

The Wife x Charlotte's Cherries || Hybrid

CBD: 15 - 22%

Delivers consistent high CBD levels while still being Total THC compliant. Can stand up to high winds and rain. Expect a complex cherry floral frame layered with pine skunk undertones.

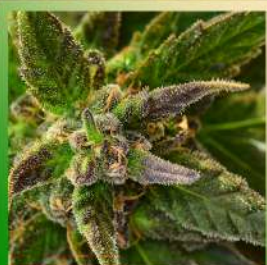

Frosted Lime

Starts @ \$1.10/seed

Unknown Cross || Sativa dominant

CBD: 13 - 16%

Won best strain of the year in 2018. Sticky and fragrant, Frosted Lime is a rich sativa-dominant strain that runs from light purple to deep indigo, and has dense buds that produce copious amounts of oil. These stout plants stand up to heavy winds and will remain mold-resistant even with heavy rains.

Merlot

Starts @ \$1/seed

Cherry Wine x Berry Blossom || Hybrid

CBD: 14 - 18%

Merlot delivers the yields of Cherry Wine with a faster finishing time, exhibits the vigor of Berry Blossom, and has very reliable compliance when grown properly. A sharp and robust frame of freshly opened tennis balls and orange peel underscored with rich tones of chocolate and cherries jubilee

Seed Starts (Group A): \$3.00/each

Seeds/Starts Catalog

Group A
(2500 min order)

Siskiyou Gold

Starts @ \$1.15/seed

Hybrid | Sativa-dominant

CBD: 12 - 16%

Towering plants with massive flowers, Siskiyou gold shows its Sativa heritage with a later finish & higher yields. Named after the rugged mountains of South Oregon, this variety has flourished in the humid southeast, the mountain west and arid southwest - virtually unaffected by mold and pests in these climates.

Golden Kush

Starts @ \$1.15/seed

Siskiyou Gold x Kush Hemp E1

CBD: 12 - 18%

This variety was released on a limited basis in 2019 and recieved rave reviews. Excellent for both the flower and biomass markets, Golden Kush has the classic Kush profile with higher yields. Disease resistant with stout plants that have dense flower structure

Seed Starts (Group A): \$3.00/each

Seeds/Starts Catalog

Group B
(5000 min order)

1942

Starts @ \$1.15/seed

Polarity x T1 Trump

CBD: 12 - 16%

This strain is a very heavy Indica dominant strain that stays short and wide. Has average vegetative growth with earlier onset flowers that are large and dense with a pungent gas smell throughout the growth phase.

Elektra

Starts @ \$1.15/seed

AC/DC x ERB cross || Hybrid

CBD: 14 - 18%

One of the phenotypes that helped revolutionize west coast CBD production. Heavy resin producer ideal for full spectrum oils and smokeable flower. Light green and orange buds that give off a rich red wine, chocolate, and citrus aroma.

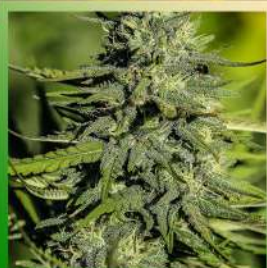

Gatsby

Starts @ \$1.15/seed

Abacus x T1 Trump || Indica

CBD: 12 - 17%

Indica dominate strain that enjoys cool weather boasting dark purple stems throughout the entirety of the life cycle. Large flower onsets earlier than most strains. With a unique growth pattern, this is one of our favorite cultivars.

Hawaiian Haze

Starts @ \$1.15/seed

DC Haze CC x ERB || Sativa dominant

CBD: 14 - 17%

This strain offers you a unique opportunity to grow equatorially-inspired, long season flavors at any latitude and to do so with large yielding, modern hybrid flower structure. Great for biomass as well as smokeable flower.

Lifter

Starts @ \$1.15/seed

Suver Haze #50 x ERB || Hybrid

CBD: 15 - 19%

Record-holder for total pounds per acre. Outstanding for both biomass and flower. Sweet, funky nose from a very strong terpene profile.

Seed Starts (Group B): \$3.00/each

Seeds/Starts Catalog

Group B
(5000 min order)

Plain Jane

Starts @ \$1.15/seed

Cherry Wine x T1 Trump

CBD: 14 - 18%

Indica dominate strain that's crossed with an "original" Cherry Wine cultivar. This strain was Farmer's choice at Alpine Desert, where it was tested. This is our sweetest smelling of the bunch with one of the best yields.

PVW 23

Starts @ \$1.15/seed

Abacus x Cherry Blossom

CBD: 13 - 17%

With amazing growth & resistance to cold and heat, this is a great strain for most of the country. Large floral flowers with a heavy aroma of earthy terpenes.

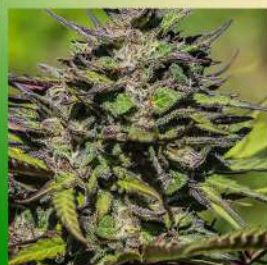

Stormy Daniels

Starts @ \$1.15/seed

Cherry Blossom x T1 Trump

CBD: 12 - 16%

Known for the excellent growth across the country in all climates, this cultivar is resistant to heat and cold stress. One of our most popular strain by customer choice. Uniform growth from this strain and excellent terpene profile sets it apart from the rest.

Sour Space Candy

Starts @ \$1.15/seed

Sour Tsunami x ERB II Hybrid

CBD: 14 - 17%

Built for drier climates and mild weather. Rock-hard, golf ball sized flowers stay intact in trim machines. Excellent structure and terpene profile similar to Sour Diesel/Chem/OG lines.

Suver Haze

Starts @ \$1.15/seed

Suver #8 x ERB II Hybrid

CBD: 16 - 22%

Outstanding hybrid. named after the road the original breeding facility was located along. Excels in moist climates and exhibits strong resistance to botrytis. Some of the highest recorded CBD %s with exotic sour apple terpenes.

Seed Starts (Group B): \$3.00/each

Seeds/Starts Catalog

Group B
(5000 min order)

Special Sauce

Starts @ \$1.15/seed

AC/DC x ERB Cross

CBD: 14 - 17%

One of the phenotypes that helped revolutionize west coast CBD production. Heavy resin producer ideal for full spectrum oils and smokeable flower. Smaller buds allow for cultivation in wetter climates.

The Bull

Starts @ \$1.15/seed

Machiavelli x T1 Trump

CBD: 12 - 16%

This strain is a Sativa dominate that has explosive vegetative growth. Fairs well in cold weather and heat. Plants give off a welcoming aroma with a very clean terpene profile.

Matterhorn (CBG)

Starts @ \$1.25/seed

CBG: 15 - 18%

This varietal is known for its uniform shape, plant vigor and yield. Effervescent notes of citrus, lemon and lime.

Stem Cell (CBG)

Starts @ \$1.25/seed

CBG: 12 - 16%

This CBG dominant strain was the first commercially available. It is a vigorous grower that produces high yields of large flowers. This was bred specifically for biomass producers and its unique trichome composition allow for easy combine harvest.

White (CBG)

Starts @ \$1.25/seed

CBG: 16 - 20%

Plants grow into stout bushes with large frosty flowers. Its creamy-lemon aroma and beautiful bag appeal make it an excellent choice for cut flower production, with some producers even running it in light deprivation greenhouses. Excellent powdery mold resistance.

Seed Starts (Group B): \$3.00/each

Seeds/Starts Catalog

Group C
(10,000 min order)

Chardonnay

Starts @ \$1.15/seed

Black Rose x Cherry Wine

CBD: 12 - 15%

Phenotypes exhibit purple flower colorization by the time of harvest. Expect notes of fresh strawberry-rhubarb jam and candied raspberries

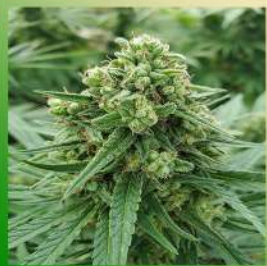

Eclipse

Starts @ \$1.15/seed

Cherry Cross

CBD: 14 - 19%

Heavy-yielding and fast-growing, the Eclipse strain is a Cherry cross that delivers on potency and flavor. Comes with a proven track record of total THC compliance and mold/mildew resistance. Buds are ideal for machine trimming with a low leaf-to-flower ratio. Terp profile is bursting with cherries.

Moonwalk

Starts @ \$1.15/seed

Purple Cow Cross || Indica

CBD: 14 - 20%

This indica-dominant early finisher (late Sept) has beautiful uniform structure with robust terpene profile. Outstanding CBD % with high yields per plant. Very mold/mildew resistant and able to carry her weight.

Red Bordeaux

Starts @ \$1.15/seed

Berry Blossom x Chardonnay || Hybrid

CBD: 14 - 17%

With no compromise in vigor this varietal allows you to stagger your harvest beginning with Red Bordeaux. This can be a huge logistical advantage when dealing with acres of biomass, giving you the ability to harvest your slightly later finishers in their ideal harvest window.

Trophy Wife

Starts @ \$1.15/seed

Wife S1 x Cherry Wine || Hybrid

CBD: 15 - 19%

Expect top shelf bag appeal packed with an offensively loud terp profile. Packed with a loud cheesy terp profile. Heavy notes of cheese and skunk complimented by cherry undertones.

Seed Starts (Group C): \$3.00/each

ORDERING SEEDS & STARTS

STEP 1 : Order

Select the varieties you would like to order. Please take note of the minimum order requirement for the various strains: Group A (2500), Group B (5000) and Group C (10,000). Please contact us at 773-250-7658 when you are ready to place an order.

STEP 2 : Invoice

An invoice will be created for you that will have your order information, along with the timetable for delivery/pickup. You will need to sign our Material Transfer Agreement as well.

STEP 3 : Payment

All seed purchases must be paid for in full (except in the case of bulk orders). A 50% deposit is required (minimum) for all seed start orders. The remainder will be due before delivery/pickup. We accept bank transfers and/or cashiers checks as forms of payment.

STEP 4 : Pickup/Delivery

Seeds will be ready for pickup/delivery starting in March through the end of June. We will do our best to ensure your seeds and seed starts are ready within the time frames provided to us. For pickup, you will coordinate with our delivery manager who will pull your order prior to your arrival.

For delivery of seed starts, there will be an additional cost that will be negotiated with one of our preferred A-Rated logistics companies. You will be provided a quote after we have drafted an invoice for you. Seeds will ship at no additional cost.
